## Welcome to Dayton, Fuyao

01.10.2014 | President

University of Dayton President Daniel J. Curran said today the University of Dayton community is excited about the announcement on the redevelopment of the former General Motors Co. plant in Moraine.

"Our researchers and graduates have proven to be great assets for advanced manufacturing companies and we look forward to seeing how we can work with Fuyao to make their enterprise here as successful as possible," he said. "The university works closely with many multinational companies, especially through our significant presence in China's Suzhou Industrial Park.

"More importantly, this is simply great news. The Dayton region has a great workforce and we are all looking forward to the new opportunities this means for so many families and businesses in our community."
